OFFICE OF THE COMMISSIONER OF BANKS
150 CAUSEWAY STREET, BOSTON

*To the Honorable Senate and House of Representatives
of the Commonwealth of Massachusetts:*

I have the honor of submitting to you herewith the annual report of the Commissioner of Banks relating to Co-operative Banks and Savings and Loan Associations, pursuant to the provisions of General Laws, Chapter 167, Section 9.

The financial statements pertaining to Co-operative Banks and miscellaneous statistical data incorporated herein are for the fiscal year ending April, 1965. The financial statements and miscellaneous statistical data incorporated herein pertaining to Savings and Loan Associations are for the year ended December 31, 1964.

Respectfully submitted,

JOHN B. HYNES
Commissioner of Banks

CO-OPERATIVE BANKS

Assets Continue Record Growth

The assets of one hundred and sixty-four state-chartered co-operative banks in the Commonwealth continue to register a remarkable pattern of growth for the fiscal year ending April 1965. Total assets during this period attained a new high of \$1,721,702,362.36, compared with \$1,574,560,864.26 for the previous twelve-month period, which represents a substantial asset gain of 9.34% for one year. A review of the year's performance reveals a dramatic story of impressive growth, with new structural highs resulting from spectacular gains in mortgage portfolios and share capital accumulations.

Loans Highest in History

Loans on real estate, the largest single asset item, attained a record high of \$1,433,436,126.90. This aggregate total reflects an increase of \$120,394,815.64, or 9.16%, over the prior fiscal year end total of \$1,313,041,311.26. Bank investments in real estate loans thus represent a ratio of 83.26% to total assets. The unprecedented volume of new mortgage financing placed on the books of co-operative banks during the fiscal year was certainly one of the most outstanding.

Investments in Cash and Securities

Combined totals of cash on hand and in banks, together with funds invested in bonds, notes and stocks, aggregate an amount of \$235,164,268.91, which represents 13.66% of total assets and discloses a dollar increase of \$20,262,235.01. Cash on hand and in banks reflected a ratio of 3.91% to total assets and revealed a 12.25% dollar increase over the previous period. Investments in U.S. government obligations, liquid for reserve under Massachusetts law, totaled \$133,738,983.05, constituting 7.76% of total assets and disclosing a 10.04% dollar increase over the previous period.

Shareholdings at New High

During the fiscal year ending April 1965, shareholders' deposits mounted to a new year end high. Aggregate deposits totaled \$1,507,796,047.05, which represents 87.58% of total liabilities, while this showing indicates a percentage increase of 9.76% against the comparable previous period based on a dollar increase of \$134,082,763.22. The emergence of a near 10% increase in share capital accumulations is especially impressive when considered in the face of an atmosphere of intensified competition by other thrift institutions.

Protective Reserves Indicate Stability

Non-withdrawable reserve accounts, including surplus accounts, totaled \$126,247,818.25 and reflected an increase of 4.17% against the comparable fiscal year. Representing 8.37% of total share capital, the significance of this disclosure lies in the fact that while asset growth showed a gain of 9.34% over the comparable prior period, protective reserves have still maintained a contiguous relationship to the ratio of 8.81%, reflected in the previous report.

New Program of Audit and Examination

In January 1965, under laws enacted with the passage of Chapter 611 of the Acts of 1964, a new program of annual audits by approved certified public accountants and annual examinations by the state supervisory authority was adopted. While this program is, as yet, in its infancy, experience thus far would indicate that audits and examinations will be conducted on a more current basis, and that each co-operative bank will derive the benefits of an audit and examination during each calendar year.

THE CO-OPERATIVE CENTRAL BANK

As of the close of business April 30, 1965, the aggregate assets of this Corporation amounted to \$39,244,334.01. These assets are divided between the liquidity reserve fund, amounting to \$15,646,984.90 and the share insurance fund of \$23,597,349.11.

The Co-operative Central Bank was established by an Act of Legislature in 1932, and its powers were broadened by a further Act of Legislature in 1934, which created the Share Insurance Fund. Under the provisions of statute, it is wholly owned and administered by all Co-operative Banks incorporated under the laws of Massachusetts. The Co-operative Central Bank serves a dual purpose for the 164 Co-operative Banks — namely, to provide cash to a Co-operative Bank in an emergency, and to protect in full against loss of savings of the account-holders of its member Banks. This Corporation, which has been in operation for over thirty years, has proved to be an effective bulwark during periods of economic stress, while also providing insurance for deposit balances in the Co-operative Banks of this Commonwealth.

CO-OPERATIVE BANKS EMPLOYEES' RETIREMENT ASSOCIATION

The Co-operative Banks Employees' Retirement Association was created by an Act of Legislature in 1945 and was established for the purpose of providing pensions for eligible employees of the participating banks who retire on account of age or disability. The law defines eligible employees as employees of Co-operative Banks established under the laws of this Commonwealth, the Co-operative Bank League of Massachusetts and the Co-operative Central Bank. As of April 30, 1965, the assets of this Association amounted to \$4,313,252.53. As of this date, there were 120 Banks which were members of this Association and 685 eligible employees.

SAVINGS AND LOAN ASSOCIATIONS

There are, in this Commonwealth, three state-chartered Savings and Loan Associations, all of which are located in the Southeastern section of the Commonwealth. These Associations operate under agreements of association in the form of voluntary trusts. The Commissioner of Banks has supervision over these Associations in accordance with the provisions of Section 34 of Chapter 93 of the General Laws. As of the close of business December 31, 1964, these Associations had aggregate assets in the amount of \$3,425,717.42 representing an increase of \$36,198 during the fiscal year.

CREDIT UNIONS

The statistical information provided in the following review and in supporting schedules and composite statements, relates to the twelve-month period from July 1, 1964 to June 30, 1965, inclusive.

During the period ending June 30, 1965, seven new credit unions began business, and nine entered into liquidation.

The following facts and figures present highlights of the composite financial condition of the credit unions on June 30, 1965 and changes effective during the previous twelve-month period.

Total Assets

On June 30, 1965 the 436 credit unions in operation had total assets of \$311,599,538 which represents an increase of \$33,471,410 or 12.03% over the figure of June 30, 1964.

Personal Loans

Personal loans to members which represent a major phase of the operations and objectives of credit unions chartered by the Commonwealth, continued the upward trend of prior years as the unsecured and partially secured classification rose approximately \$11,131,367 to the present outstanding balance of \$72,735,475 and the secured group increased \$7,158,154 to \$60,320,508. †Relocation

As of the fiscal year ended October 31, 1965, 73 banks had been authorized to operate branch offices, and there were 153 branches in operation.

ASSETS

The total assets of such banks at the end of the fiscal year amounted to \$9,432 million. During the fiscal year the assets increased approximately \$652 million, an increase of 7.43 per cent which represents a continual increase.

YEAR	TOTAL ASSETS AS OF OCT. 31 (in thousands of dollars)	INCREASE (in thousands of dollars)	ANNUAL PERCENTAGE OF INCREASE
1961	\$6,975,623	\$473,648	7.28
1962	7,514,632	539,009	7.73
1963	8,072,894	558,262	7.43
1964	8,779,990	707,096	8.76
1965	9,432,073	652,083	7.43

Investments in all types of notes, bonds, etc., which savings banks are permitted to acquire have, in general, increased. U. S. Government holdings have increased approximately \$63 million, bank and fire insurance company approximately \$28 million and municipal obligations \$643 thousand. The total investment in other types of bonds decreased \$6 million during the year.

The largest dollar and percentage gain as compared to figures contained in the previous annual report for the year ended October 31, 1964, is reflected in the loans granted on real estate. The dollar increase amounted to approximately \$551 million, which total appears to indicate that the steady requirement of funds for financing of home and business construction is being provided for by these types of banks. The total real estate loans outstanding at the end of this fiscal year amount to \$6,496 million and represent 68.87 per cent of total assets.

DEPOSITS

The deposit liability of the 179 savings banks at the close of business October 31, 1965, amounted to \$8,348 million and represented 3,542,221 accounts. The club deposit figure amounting to \$30 million is not included in the foregoing amount. During the fiscal year ended October 31, 1965, deposits increased in the amount of \$595 million which compares with an increase of \$620 million in the preceding year.

SURPLUS

The total surplus and reserve accounts for all savings banks at the close of this fiscal year amounted to \$780 million, or 9.31 per cent of the total deposits. The amount of these surplus accounts has increased approximately \$37 million since the fiscal year ended October 31, 1964. The volume of these surplus and reserves, in the opinion of this department, is adequate to properly protect the interest of the depositors.

DIVIDENDS

Dividend rates have continued to increase during the twelve months ended October 31, 1965. Statement number 3 of this report is now headed "Dividend Rates," and includes rate tables on Ordinary Deposits, Special Notice Account Deposits and an Average of All Dividend Rates. It should be borne in mind that the rates as shown do not necessarily indicate the current rates presently being paid. The amount of dividends paid to depositors for the twelve-month period totaled approximately \$329 million, which is an increase of \$30 million over the preceding year.

MUTUAL SAVINGS CENTRAL FUND, INC.

The Mutual Savings Central Fund, Inc., was established by Chapter 44 of the Acts of 1932. The statute provides that all savings banks must be members and that two separate Funds must be maintained, a Liquidity Fund and a Deposit Insurance Fund; the latter Fund was established by the enactment of Chapter 43 of the Acts of 1934.

LIQUIDITY FUND

The purpose of this Fund is "to assist such member banks when they are temporarily in need of cash or hold investments which cannot be readily liquidated, by making loans to them secured by the pledge of mortgages or other securities legally held by such member banks." The principal source of the resources of this Fund is the deposits made with it by the member banks in compliance with requests for such deposits voted by the Directors of the Fund and within the limitations prescribed in the statute. The total resources amounted to \$10.8 million at the close of business October 31, 1965. No application for a loan has been received since prior to the year 1939.

DEPOSIT INSURANCE FUND

The purpose of this Fund is to insure depositors in all Massachusetts savings banks against loss. As of October 31, 1965, this Fund insured the full amount of the deposits in 171 of the 179 Massachusetts savings banks, and as required by Massachusetts law, it also insured the excess of any depositor's account over \$10,000 in the eight savings banks which are members of the Federal Deposit Insurance Corporation. The net amount of the Deposit Insurance Fund was \$69 million at the close of business October 31, 1965. The annual assessment at the rate of one twenty-seventh of one per cent of the member bank's deposits, exclusive of the deposits insured by the Federal Deposit Insurance Corporation, was levied on October 31, 1965.

SAVINGS BANKS INVESTMENT FUND

Shares of beneficial interest outstanding grew to 26,839 a gain of nearly 20 per cent during 1965, while assets, at cost, of the Fund increased from \$28.4 million to \$35.7 million during the year, a gain of about 38 per cent. On October 31, 1965, market value of the Fund was \$47.9 million. Established by Chapter 283 of the Acts of 1945 as amended by Chapter 624 of the Acts of 1945, the Fund is of the open-end type and its shares as of October 31, 1965, were held by 89 savings banks, 3 life insurance departments and the Savings Banks Employees Retirement Association. Net asset value per share on October 31, 1965, was \$1,329.42 on a cost basis and \$1,784.58 on a market basis.

SAVINGS BANKS EMPLOYEES RETIREMENT ASSOCIATION

The Savings Banks Employees Retirement Association, created by the Acts of 1943, Chapter 249, as amended by General Laws, Chapter 168, Sections 74-76 inclusive, is designed to provide pensions for eligible employees of participating banks and associations who retire on account of age or disability. At the present time there are one hundred and seventy-one member banks plus seven associations. The total resources of this Association amounted to \$32 million at the close of business October 31, 1965.

TRUST COMPANIES

Two new trust companies commenced doing business during the year 1965: the Liberty Bank and Trust Company, Boston, on August 25, 1965; and the Marblehead Trust Company, Marblehead, on May 17, 1965.

The number of trust companies conducting business was thus increased by two during the year with the total standing at sixty-six on December 31, 1965.

The First National Bank of Webster merged with the Guaranty Bank & Trust Company, Worcester, as of September 30, 1965 under the charter of the trust company.

The total resources of the banking departments of Massachusetts trust companies amounted to \$2,736,073,000, a gain of \$211,899,000 over the prior year.

The total capital funds of the trust companies increased by \$18,306,000 during the year and as of December 31, 1965 totaled \$279,000,000 or approximately 10.20% of the total resources of the banking departments. These capital funds include \$28,262,000 in so-called valuation reserves which for statistical purposes are treated as capital reserves.

Gross earnings totaled \$150,848,631, a gain of \$13,879,945 of which approximately 70% was due to increased income from interest and discount on loans and an additional 20% from increased income from the trust departments.

Net current operating earnings of \$44,388,178 before income taxes for the year 1965 increased by some \$3,925,243 over the previous year. Income taxes paid or accrued amounted to \$15,505,642 which was practically the same figure as in 1964. Taxes paid or accrued represented 34.93% of the net current operating earnings.

Net profits before dividends to stockholders of \$24,723,679 showed an increase of \$2,950,684. Dividends paid to stockholders totaled \$12,765,290 or 51.63% of the net profits before dividends.

The percentage of net capital funds to total net assets on December 31, 1965 was 9.27%. The average for the past ten years is 9.18%. The amount of capital funds in this instance does not include valuation reserves. This capital ratio compares favorably with the national average as of June 30, 1965 which was 8.30% for all insured commercial banks in the nation. It further indicates the ability of management to retain earnings and build reserves for the protection of the depositors while paying increased dividends to savings depositors and returning a fair portion of the profits to the stockholders.

Banking Departments

As mentioned above, the resources of the banking departments increased some \$211,899,000 during 1965. The loan portfolio comprised approximately 84% of the gain dollarwise. This growth exceeds the average annual increase during the past five years of \$155,800,000. During this five-year period total assets of the banking departments have grown nearly \$800,000,000.

Demand deposits of individuals, partnerships and corporations rose \$89,963,000 or 6.65% and as of the close of 1965 reached \$1,442,934,000. Deposits of the U. S. Government continued the decline began in 1964 and were down \$11,605,000 to a total of \$46,289,000 at the year end. At the same time state, county and municipal deposits increased by \$17,942,000 to a total of \$176,603,000. The overall demand deposits in the trust companies continued their growth and as of December 31, 1965 totaled \$1,828,148,000, an increase of \$98,165,000 for the year. Commercial time deposits continued to climb and at the end of 1965 reached \$104,080,000, up \$23,377,000 or 28.97% over the prior year and a 173.15% increase during the past three years.

Sixty-three trust companies reported savings deposits aggregating \$414,516,000, an increase of \$59,754,000 or 16.84% over the year 1964. Savings deposits in trust companies have grown steadily during the years. The average rate of interest for the year 1965 was 3.45%.

Total capital funds showed another gain for the year and on December 31, 1965, exclusive of valuation reserves of \$28,262,000, amounted to \$251,103,000, up \$16,544,000 for the year. Included in the capital accounts are the Guaranty Funds amounting to \$16,895,000 which are maintained as a protection for savings depositors.

As an additional protection to both savings and commercial depositors, sixty-two trust companies in this Commonwealth are insured by the Federal Deposit Insurance Corporation whereby the accounts of each depositor are insured in the aggregate amount of \$10,000.

Trust Departments

The resources of the trust departments continued to show a steady growth and as of December 31, 1965 amounted to \$4,189,861,000, an increase of \$345,706,000. Additional holdings of stocks accounted for 57.70% of the increase while 27.87% was reflected in holdings of bonds. It has become increasingly evident that the fiduciary activities of our banks are becoming more widely known and the skill and integrity displayed in their management more generally appreciated.

There are thirty-four trust companies actively exercising trust department functions. The assets of agency accounts in twenty-six of these departments are carried at a book value of \$6,001,228,000. Seven of these banks also held assets of \$475,985,000 as transfer, escrow, bond and coupon paying agent, registrar, depository, or in similar capacities.
